

7.BORU ORTAOKULU eTWINNING PROJECT FEEL AND SMELL THE SCENT OF PLANTS DECEMBER ACTIVITIES

Our students created their own pots from waste materials and handcrafts materials. They came together and planted *Geranium* in their pots in the school garden.

They worked together and had fun.

They watered their plants and put them in their classroom so that they can take care of it.

Working together and planting always feels good

Smiling faces make the world happier!

FEEL AND SMELL THE SCENT OF PLANTS
