

JANUARY ACTIVITIES

FEEL AND SMELL THE SCENT OF PLANTS

In January, our students had many activities. Students prepared lots of online games and shared them in Twinspace; so that all of the students played the games. There are some examples of the games our students prepared:

How to make a cup of tea? (with connectors of sequence) 1

2020-04-10 (2020-03-30)

- 1 After, add some sugar and milk.
- 2 First, boil some water.
- 3 Then, put the teabag in the water.
- 4 Finally, add a cit and enjoy.
- 5 Next, serve the water in a cup.

Students played the games which their friends prepared. There are some pictures while our students play the online games.

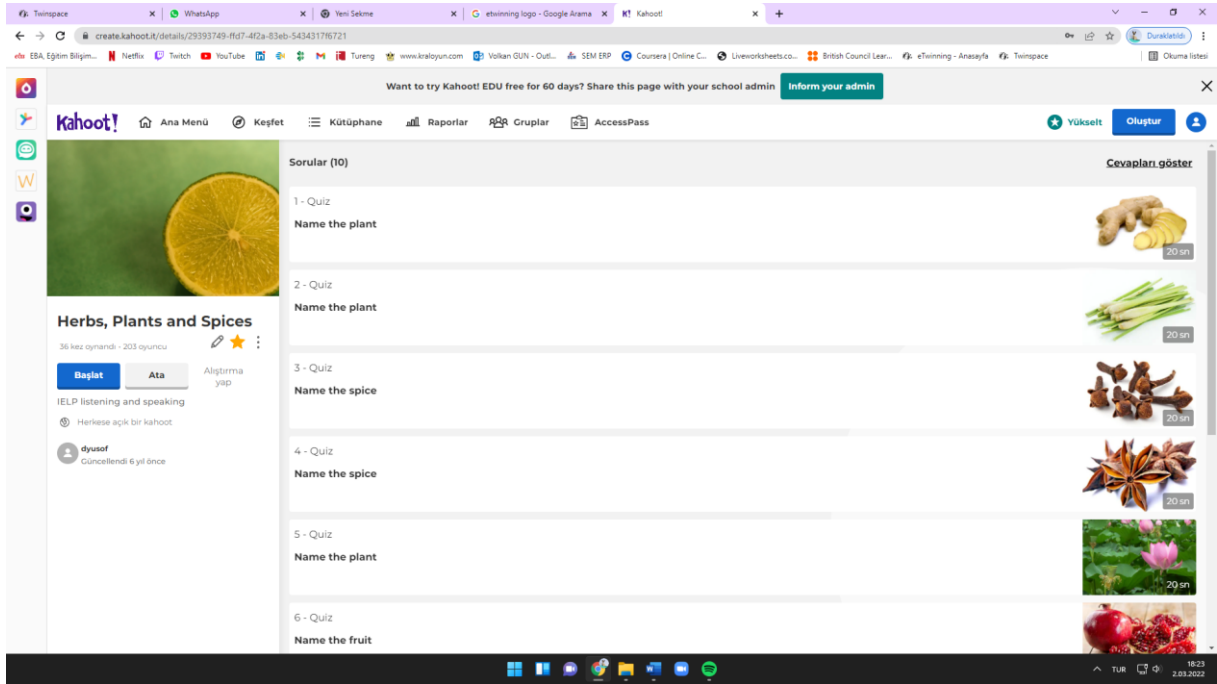

Our students made lots of activities about plants in their schools and shared them with their peers.

Our students played an online game about plants in Kahoot.

Students log in the game and played it simultaneously.

Our students prepared winter tea with the same ingredients and drank in their classrooms. Then, they shared their own experiences.

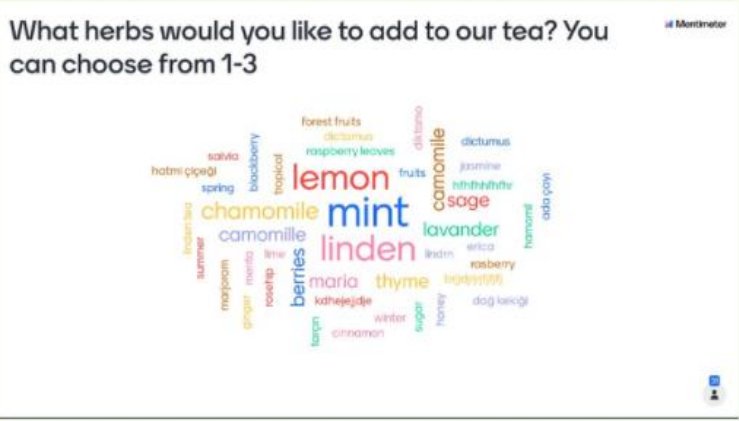

COMMON WORK

Our students voted the ingredients of the common tea in Mentimeter.

 **Dorota Adamus**

We have been working hard to prepare a common recipe for healthy and tasty tea. We used Mentimeter to vote for our favourite herbs, plants and fruit. The most popular ones will be included in our tea recipe. And the winner is..... MINT! Congratulations :-) Thank you for voting!

What herbs would you like to add to our tea? You can choose from 1-3

The ingredients are: mint, linden, camomile, lemon balm and berries.

All of the partner schools chose an ingredient and prepared the part of the eTwinning winter tea. They shot a video by joining each part together. Here is our common work: eTwinning tea!
